AN ON-LINE ORDERING PLATFORM !

EASY BOOK

- **SIMPLIFIED EXHIBITION PLANNING**
- **EASY TO USE AND INTUITIVE**
- **REAL-TIME REPORTING**

Avoid time consuming processes for ordering furniture for your exhibitors by allowing them to furnish their exhibition stands themselves. EasyBOOK is an online catalogue that allows exhibitors to take care of ordering the furniture they need.

Ordering different furniture and equipment for each exhibition booth is always a lengthy and stressful job for exhibition organisers.

EasyBOOK offers you the possibility to create an online catalogue of furniture that is available with pictures and descriptions. Multiple users can populate the catalogue with information, including your team and your suppliers.

With secure access, each exhibitor can browse the online catalogue and order their exhibition booth and its furniture via an online shopping basket. Once the order is complete, the exhibition organiser has access to an Excel database of each exhibitor's requirements.

EasyBOOK also makes it easy for the exhibition organiser to contact each exhibitor with a personalised message confirming their order.
